

# United States Senate

WASHINGTON, DC 20510-4805

April 15, 2026

Dear Chairman Murkowski and Ranking Member Merkley,

I certify that neither I nor my immediate family has a pecuniary interest in any of the congressionally directed spending items that I have requested in the Fiscal Year 2027 Interior, Environment, and Related Agencies appropriations bill, consistent with requirements of Paragraph 9 of Rule XLIV of the Standing Rules of the Senate. None of the entities for which I have requested congressionally directed spending are for-profit entities.

Sincerely,

Shelley Moore Capito  
United States Senator

**Capito, Shelley Moore(R-WV) Interior and Environment  
Congressionally Directed Spending Requests**

<b>Recipient Name</b>	<b>Project Purpose</b>	<b>Project Location</b>	<b>Amount Requested (\$000)</b>
Century Volga Public Service District	This project will replace a waterline on an aging water distribution system.	Barbour County WV	\$3,984
North Beckley Public Service District	This project will improve surface and groundwater quality via enhanced wastewater collection and treatment to customers Raleigh County.	Beckley WV	\$2,000
Beckley Sanitary Board	This project upgrades lift stations and sanitary sewer infrastructure at the Airport Industrial Park	Beckley WV	\$5,560
City of Belmont	This project replaces asbestos-cement water line that runs from the treatment plant to service lines which service schools and continues to our primary storage tanks.	Belmont WV	\$1,700
Brooke County Public Service District	This project would provide sanitary sewer services to residents in Brooke County who currently have no public service available.	Brooke County WV	\$6,432
City of Buckhannon	This project will construct a water treatment plant to provide clean water to residents and businesses.	Buckhannon WV	\$3,000
Mount Zion Public Service District	This project would replace the existing deteriorated wastewater treatment plant and pumping station equipment, repair manholes, and install emergency generators and telemetry equipment.	Calhoun County WV	\$5,000
Town of Davy	This project will upgrade and rehabilitate the Town of Davy's existing drinking water system to address aging infrastructure and improve long-term reliability and water quality.	Davy WV	\$6,534
City of Fairmont, WV	This project supports critically needed upgrades to the Wastewater Treatment Plant.	Fairmont WV	\$10,000
City of Follansbee	This project will replace aging and deteriorating fire hydrants throughout the community to improve emergency response capabilities, ensure reliable water access for firefighting operations, and strengthen public safety infrastructure for residents and businesses.	Follansbee WV	\$299
Town of Gassaway	The project aims to enhance the Town of Gassaway's long-term stormwater conveyance capacity.	Gassaway WV	\$1,875
City of Glenville	This project aims to upgrade the existing treatment facility to address aging infrastructure, meet regulatory compliance requirements, and enhance operational reliability.	Glenville WV	\$10,000
City of Grafton	This project aims to replace deteriorated water system components—including storage tank, booster pump station, and distribution line—to ensure reliable service, improved water quality, and long-term system sustainability for all customers served.	Grafton WV	\$2,000
Town of Grantsville	This project repairs failed wastewater treatment equipment, tanks and structures.	Grantsville WV	\$4,500
Greenbrier County Public Service District #2	This project would upgrade the existing water system and extend reliable potable water and fire protection, while also supporting substantial future economic development in the area.	Greenbrier County WV	\$10,000
Hardy County Public Service District	This project proposes to develop a new secondary groundwater source to provide safe, reliable water service in Hardy County.	Hardy County WV	\$1,944
Jefferson County Development Authority	This project would construct a wastewater package plant.	Jefferson County WV	\$3,000

Jefferson County Development Authority	This project would construct a water package plant.	Jefferson County WV	\$3,000
Union Public Service District	This project includes the removal and replacement of gravity sewer line, removal and replacement of the Doc Bailey lift station and force main, hydraulic backup issue, and a renovation of the PSD Office Building.	Kanawha County WV	\$5,605
Kanawha Public Service District	This project will double the treatment capacity of the existing plant, allowing the PSD to continue planned expansions of service to unserved areas of the Upper Kanawha Valley and accept the flow from area municipal treatment plants that are nearing the end of their useful lives.	Kanawha County WV	\$6,000
Buffalo Creek Public Service District	This project will construct a gravity wastewater collection system.	Logan County WV	\$1,996
Mason County Public Service District	This project would expand capacity and modernize the WTP to support economic development in Mason County.	Mason County WV	\$2,000
Mason County Public Service District	This project ensures adequate capacity to support economic development in Mason County.	Mason County WV	\$2,000
McDowell County Commission	The purpose of this project is to develop a reliable and sustainable raw water source while implementing targeted upgrades to the existing distribution system in order to address ongoing deficiencies associated with the failing Grapevine well.	McDowell County WV	\$2,921
McDowell County Public Service District	This project will construct and extend public drinking water infrastructure in McDowell County to provide reliable access to safe drinking water for residents, businesses, and community facilities that currently lack dependable service.	McDowell County WV	\$6,368
Meadow Creek PSD	The purpose of this project is to provide safe, reliable public drinking water to unserved households while supporting infrastructure improvements in a key gateway to the New River Gorge National Park.	Meadow Creek WV	\$1,000
Mercer County Public Service District	This project would rehabilitate and extend public drinking water infrastructure to provide safe, reliable water service to residents in the McComas community of Mercer County.	Mercer County WV	\$878
City of Montgomery, West Virginia	This project would refurbish existing wastewater treatment plant, and repair/replace failing equipment.	Montgomery WV	\$5,000
City of Moundsville	This project aims to reduce water loss, meet required storage capacity, ensure reliable service for current customers, and support future system expansion.	Moundsville WV	\$6,750
New Creek Water Association	The project includes replacing aging infrastructure with PVC water lines, fire hydrants, service lines, and water meters.	New Creek WV	\$6,000
Wilderness Public Service District	This project would provide safe, clean, potable drinking water to unserved residents in Nicholas County.	Nicholas County WV	\$4,200
Friends of New River Gorge Park and Preserve	This project will complete an existing conditions assessment throughout the New River Gorge region and enhance the New River Gorge to Hawks Nest area.	Oak Hill WV	\$1,900
City of Point Pleasant	This project would upgrade an aging wastewater treatment plant, replace failing equipment, upgrade pump stations, and refurbish deteriorated structures as needed.	Point Pleasant WV	\$2,500
Clay-Roane Public Service District	The project would replace leaking waterlines and upgrade water pumping, storage and production facilities.	Procious WV	\$8,000
City of Ripley	This project will decommission and backfill inactive wastewater treatment lagoons.	Ripley WV	\$8,250

City of Spencer	The purpose of this Project is to replace drinking water infrastructure and stormwater drainage facilities that serve the downtown area and adjacent urban residential sections of the City of Spencer.	Spencer WV	\$2,495
Northern Wayne County Public Service District	This project's purpose is to repair a failing sewer system.	Wayne County WV	\$10,000
Webster Springs Public Service District	This project's purpose is to construct improvements to address the excessive inflow and infiltration in the PSD's wastewater system.	Webster Springs WV	\$2,580
City of Weston	The purpose of this project is to replace deteriorated terra cotta sewer line with ductile iron pipe to improve system reliability and help the City of Weston achieve compliance with its consent decree.	Weston WV	\$2,669
Center Public Service District	This project extends sanitary sewer service to unsewered areas of Wyoming County by constructing a wastewater collection system that eliminates failing septic systems, improves water quality, and protects public health.	Wyoming County WV	\$800
